Supporting and administrative items

Item	What it covers (short)	How the course supports it
573.06(4)	examinations or practical evaluations	A quiz after each lesson (62 questions) and a 50-question final exam, 80% to pass. Your AMO may add its own practical evaluation.
573.06(5)	update training cycle of no more than three years	Certificate valid 3 years. Recommended: yearly refresher. Your AMO's training program sets the actual period.
573.06(2)(d)	staff kept aware of maintenance safety issues	Lesson 7: safety culture, reporting and SMS (supporting content; 6 quiz and 4 final-exam questions).
Records	training records and update cycle	Lesson 7 (2 quiz and 2 final-exam questions). Certificates show name, date, score and course version.

The Lesson 8 quiz adds 6 integrated questions that combine (a), (b) and (c). This is a human factors course. It does not cover the full 573.06(8) safety-personnel course list.

Built to the human factors content requirements of Standard 573.06(3). AMOs adopt it through their own MPM training program. The course and its certificate are not issued by Transport Canada; your AMO remains responsible for its training program and personnel records.
